Boils, Rashes, Pimples, Etc.

When the blood becomes infected with any unhealthy humor the effusion by boils, pimples, and rashes or eruptions on the skin. Humors enter the blood usually because of an inactive condition of the eliminative members. Thus unhealthy matter is left in the system to sour and ferment and be absorbed into the circulation. Remove these humors and skin trouble can exist, because its very source is then removed. Boils, rashes, pimples, etc. can never be cured through the application of external medicines, because such treatment can have no possible effect on the blood; the most to be obtained from such measures is temporary relief. S. S. S. CURES all skin afflictions because it purifies the blood. It goes down into the circulation and cleanses it of every particle of unhealthy matter. Then the blood exercises its normal function of supplying nourishment to the cuticle instead of irritating it with a fiery humor. If you have any skin trouble you could not do better than to use S. S. S. It does not "patch up" it cures.
